FOREWORD

The school year of 1958-1959 has been a busy one for the students of Hart High School. In this yearbook the annual staff has tried to sum up the many activities in which our school has participated. The symbols of the various activities and organizations are a never-ending parade; but we have tried to capture a few of these in words, drawings, and photographs so that in years to come you may look back at these and faintly remember the joys, the wonderful good times, the sorrows, and tribulations of which you were a part this year.

The symbol of H. H. S. is the Longhorn, but the true symbol of our school is the spirit of the students, the cooperation which they have demonstrated, the many activities in which they have participated, and the fine way they have upheld the standards of Hart High School.

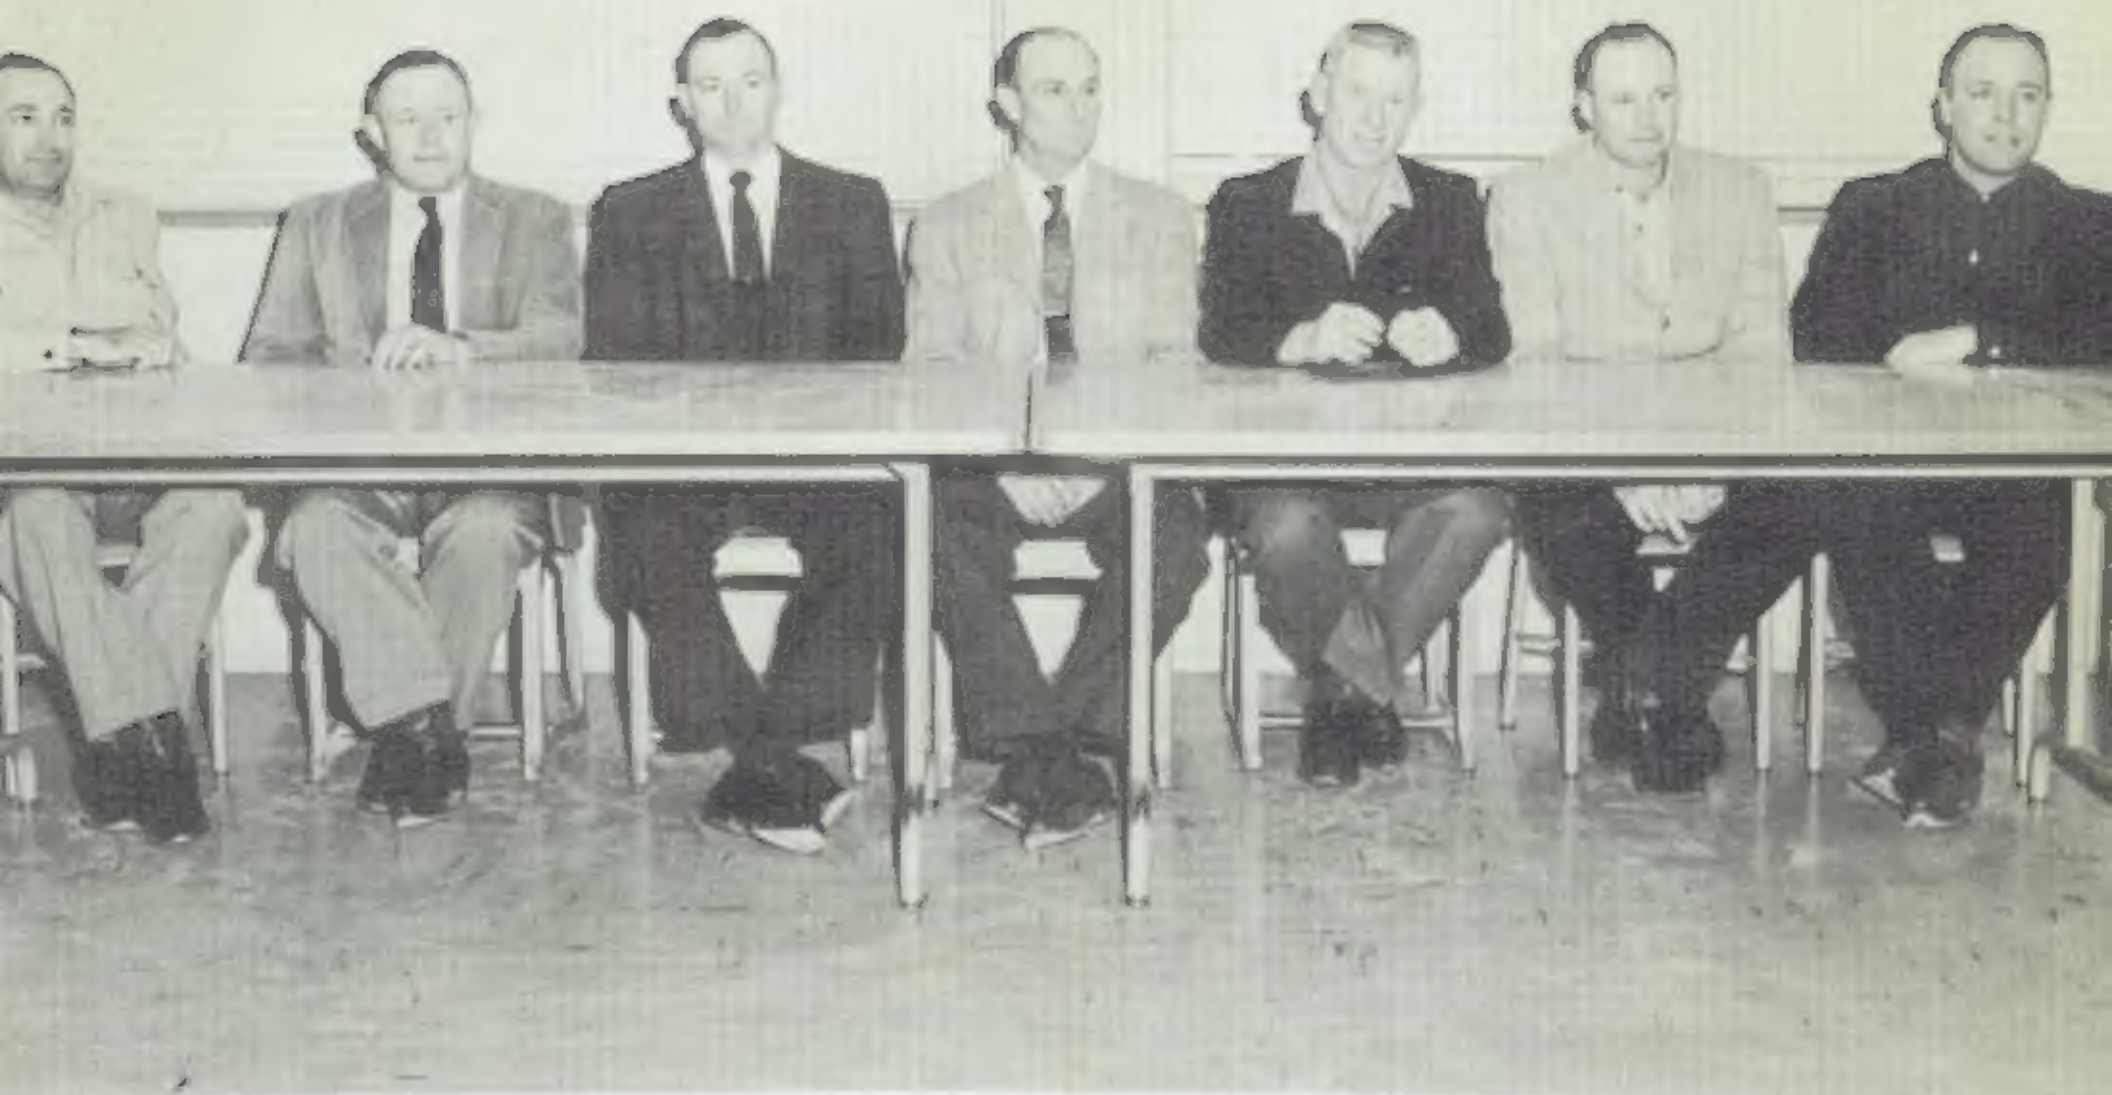

The '59 Longhorn has attempted to portray the past school year as faithfully as possible. There are some events which, unfortunately, have been omitted. They were missed because of forgetfulness, the nature of people, and the pressure of deadlines. For this, and for picture appointments missed, we are sorry.

We, of the staff, have done our best to make this yearbook one that will reflect credit upon the school and give something to you, the student, that you will treasure in the future. To what measure we have succeeded, you may be the final judge.

We, the Annual Staff, are proud to present to you our 1959 Longhorn.

DEDICATION

The members of the Hart, Texas, School Board play an important part in the everyday life of the typical teenager without his being aware of it. Theirs is the knowledge and experience which unobtrusively guides and moulds our lives and sometimes even our destinies.

On this page, the staff of the 1959 Longhorn, teenagers themselves, pay tribute to those who have so unselfishly contributed to the education and progress of the typical teenager.

To a group of men who give freely of their time and effort for the betterment and promotion of the educational system of our community, we proudly dedicate this 1959 Longhorn.

ADMINISTRATION

SUPERINTENDENT'S MESSAGE

Our association has been brief, however the experiences together have been pleasant. Your accomplishments have been many and have exceeded the expectations of many observers.

Today we are living in a revolutionary age, that is, an age of change. This period is based on scientific knowledge, which is in turn based on education or learning, thereby making our search and discoveries important.

Our way of life will always be based on three great principles--Christian living, democratic way of life, and educational improvement. We, as Americans, cannot ignore any one of these and must pursue these principles collectively.

May this be a challenge to you, our future citizens of the United States: That each endeavor to live a more Christian life; that each exercise his rights and privileges as a member of a democratic nation; and that each pursue, to the best of his ability, the search for and the attainment of any educational opportunity, no matter what the cost may be.

May God be with you in all your endeavors and may life hold success and happiness.

Your friend,

Paul L. Kennedy
Paul L. Kennedy

Congratulations to the Seniors of 1959. You have completed four years of high school work and must now assume the role of a citizen and a leader in your community. I hope that the principles you have had in Hart High School will be an inspiration for you to courageously learn and grow in whatever field of endeavor you choose to devote your talents.

To the undergraduates, let me challenge you to apply yourselves to your studies so that you may be looked upon as the pride of Hart.

It has truly been an honor and a privilege for me to have been associated with such an outstanding group of students. Your hard work and splendid cooperation has made the year 1958-59 a year that will be long remembered.

May best wishes and a silent prayer follow each of you in all of your endeavors throughout the years to come.

GRADE SCHOOL

It has been a pleasure for me this year to observe our growth in many areas. You, as students, have had to bend your backs and take on a heavy yoke of work and responsibility. In addition, we realize that many changes were made in your activities. However, you accepted this work, this responsibility, and this change, you delivered the harvest. Now that you can better see the objectives of education, we are certain that the task of finishing the job will seem much easier and more pleasant.

We are looking forward with anticipation to another year, more prosperous and rewarding than the one just concluded.
